Ed Miranda

Frontend Engineering
Roswell, Georgia, United States

Summary

Helping the world build out fast, secure, and rich experiences on the web through the use of modern technologies, scalable designs, and agile workflows.

On the backend side of things, I enjoy keeping a tidy lawn, going for long runs, and making music.

Experience

BlackRock

Engineering Manager

November 2022 - March 2024 (1 year 5 months)

Atlanta, Georgia, United States

Led a team of engineers in developing portfolio analysis tools for clients. Collaborated closely with client teams to ensure all project requirements were addressed. Managed time, resources, and prioritizations effectively. Conducted regular standups, scrum meetings, and retrospectives to ensure project progress and team alignment.

Deloitte

Lead Software Developer

March 2016 - November 2022 (6 years 9 months)

Atlanta, Georgia, United States

Engaged in multiple consulting projects spanning the Healthcare, Human Capital, and Financial sectors. Notably, contributed to the development of several COVID-19-related applications during pivotal moments in the pandemic. As Lead Frontend Engineer, spearheaded a product that achieved a remarkable sale for a high eight-figure sum, marking a significant accomplishment.

CUMULUS MEDIA

Web Developer

February 2013 - March 2016 (3 years 2 months)

Buckhead, Georgia, United States

Contributed to internal legacy revamp projects aimed at enhancing sales processes. Played a key role in designing and developing multiple radio station websites, with notable projects including those for the prestigious Westwood One radio station group.

Cornerstone Media Group, Inc.

Jr Web Developer

January 2012 - February 2013 (1 year 2 months)

Lilburn, Georgia, United States

Part of a compact development team responsible for constructing websites tailored to small to medium-sized businesses. Held pivotal responsibilities in design, user experience, and frontend engineering.
